What have we learnt about transformation?

- Transformation is complex
- The SDGs are a useful framework
- The existing system and the potential system need to co-exist
- Transformation requires learning and unlearning
- Transformation requires connections
- Transformation requires holding a long-term vision
- System transformation requires personal involvement and change
- Transformation needs to happen at different levels

What questions are key for our community to explore?

METHODOLOGY QUESTIONS

How to measure and communicate impact of Labs?
How can we be more explicit about our ambition and the impact our work?
Can we explore framing about unfulfilled potential?

What conversation about power will make the difference?

What actions will effectively advance transformation?

What is the role of technology?

How to engage people, organizations, networks, skills and resources beyond what we currently do?

How do we know an idea is transformative?

Does transformation always require disruption?

How can we advance transformation?

How do we scale solutions?

Actionable Insights

"Let go of the search of the right level of change, they're all legitimate"

EMBRACE THE USE OF NEW TECHNOLOGIES AND DATA
- Blockchain
- Citizen science
- Data
- Modelling

EMBRACE NEW MINDSETS AND FRAMINGS
- Apply theories we heard
- Embrace working on change at different levels
- Organise a constellation

CONNECT WITH OTHERS
- That we met here
- Colleagues that weren't here
- Continue to connect with people from Reos

"Be excited about the unexpected"

UNDERTAKE NEW INITIATIVES AND ENHANCE EXISTING ONES
- New Sustainable Fashion Labs
- Change labs in new places
- Connect Oceans work with other SDGs

SHARE, APPLY AND CONTINUE LEARNING
- Use new ideas and approaches in our work
- Continue to expand our horizons
- Share learnings from the event with colleagues

FURTHER DEVELOP, EXPLORE, AND USE METHODO-LOGIES
- Design thinking
- Make the peolple the focus
- Embrace the unexpected
- The sacred feminine

"A new mind set is a powerful product of a transformation process"

"Start small aim big"

What not-yet-actionable ideas are we taking away?

Develop a global SDGs reporting process

Integrate SDGs into all corporate and goverrnement goals

More explicity define transformation for the SDGs

Develop an SDG practices guide

Create SDG 18 - Mindset Change

Accelerate SDG achievement

Bring together the worlds of technology and systems change

Undertake approaches to transform power structures

Undertake key new scenario processes

- Scenarios for the future of women in the world

- Scenarios on role of science in sustainable transformation

Enable the impossible to happen

Enhance transformation methods by bringing in new elements

- Citizen science
- Arts
- Spirituality
- Personal development academy
- Use of more data

Create a platform to connect food systems work and food labs

Leverage global financial institutions as champions

We can and should transform huge global institutions
